

As a student for whom English is my second language, I was blessed with good mentors and fortunate to be accepted into the Nursing program.

Mentors came in the form of teachers, friends, and co-workers. Their common bond was that they believed in me. Their faith in me spurred me on to be the best that I could be. At the School of Health Sciences in the midst of the challenging courses, instructors, advisors, and counselors encouraged me in stressful times. With the support of these caring people in my life, I was able to succeed in the nursing program.

My goal is to continue my education and work towards a Bachelor of Science in Nursing. I am also determined not only to use my nursing and bi-lingual skills to help the sick, but also to mentor others as I have been mentored.

I would like to encourage you to pursue your dreams as I did. Do not be afraid to achieve your goal of becoming a registered nurse. It is an excellent rewarding career!
